[view.lakeoconeeacademy.org](https://view.lakeoconeeacademy.org)

To download the software you will need to know a little bit about your computer to figure out which version to download. If you are on a windows based machine, you can go to the **Windows** button in the bottom left corner, right click on **My Computer**, and then left click on **Properties** to see the information you will need about your computer.

- \* When you reach the login screen, your student will need to login the way they do at school.  
(loa +last four digits of student # + !)
- \* Make sure the domain is **LOA** and click login.
- \* Pick **LOA Students** and click connect.
- \* If you get a message about an untrusted view connection or certificate problem, click continue.
